

1 3 TONNE WITH QUICK LIFT

3 TONNE 2

1 TJ3HD/QL
3 tonne Heavy Duty Garage Trolley Jack with 'Quick Lift' Facility

Manufactured to EN1494 Specifications
 Heavy duty design with integral American-style release mechanism and two-piece handle. Incorporates 'Quick Lift' pedal which when depressed brings the saddle into contact with the jacking point without the need to pump the handle. Fitted with heavy duty rear swivelling castor wheels and large saddle to aid positioning under the vehicle. The jack incorporates a safety overload and bypass valves to prevent the handle locking at the maximum ram extension. Display carton.

Specification:
 Capacity ... 3 tonnes (3000kg)
 Lifting range ... 145 - 490mm
 Overall size ... 640 x 350 x 160mm
 Weight ... 39.5kg

Stock No.	Box Qty	Price each
59301	-	€271.06D

2 TJ3/HD

 Overall size ... 1200 x 430 x 200mm
 Weight ... 63kg

Stock No.	Box Qty	Price each
48349	-	€309.72P

DAVE SAYS

SAFETY OVERLOAD PROTECTION

Jacks are rated to lift a certain load and for your safety all Draper jacks are fitted with Safety Overload Protection. If the load you are trying to lift is heavier than the capacity of the jack the Safety Overload Protection will prevent the jack from operating, saving any possible damage to the jack or possible injury to the user.

Never work under an unsupported jack and always use a jack that is correctly rated for the application.
