

Draper Expert VORTEX - the revolutionary socket system

The unique hollow socket technology of the Draper Expert VORTEX ratchet and sockets is ideal for long fixings. The sockets are edge driven. This allows a fixing to pass through the head and avoid the depth restriction of conventional sockets and ratchets. Manufactured from chrome vanadium steel hardened, tempered, chrome plated and polished for corrosion protection. All Draper Expert VORTEX sets are packed in blow mould carrying cases with display sleeves.

1 VTX16AM
16 piece 13mm Metric Draper Expert Vortex Gear-Ratchet Socket Set

DAVE SAYS

BENEFITS OF THE "DRAPER EXPERT VORTEX" SYSTEM...

- Vortex sockets are hollow and driven from the outside, allowing fixings to pass through the centre.
- Unique design can increase torque by up to 40%.
- The 'Gear-Ratchet' system means ratcheting is reduced to around 5° instead of 25°, which is common on conventional ratchets.
- Access is increased by up to 50%.

QUALITY MAKES THE DIFFERENCE
