

# Stationary Power Tools - for the workshop

For 2011/12 we have created this quick reference product locator to define the groups of products shown in this sub-section and speed location.

There have been more new products added since 2010/11; including two micro metal working lathes, a whole new range of propane mix and diesel kerosene space heaters plus two contractors saws - back by popular demand.

## Pillar Drills/ Milling Machine

A selection of pillar drills suitable for avid DIYers to the industrial workshop.

New products include an entry level mini mill drill.

Pages 489-492

## Vacuum Cleaners/ Dust Extractors

Industrial quality Dust Extractors and Vacuum Cleaners for domestic and contractor use are available including a wall-mountable cleaner. All are suitable for workshop and factory premises.

Pages 502-503, 509-512

## Saws and Cutting Machines

Including Morticing Machines, Bandsaws, Table Saws, Fretsaws, Contractors Saws and Planer/Thicknessers.

All our cutting machines are suitable for heavy duty workshop use.

Pages 493-502
