

1 AMM1

Pocket Analogue Multimeter

IEC61010 Specifications

Handy pocket analogue multimeter for use in electrical and automotive applications. A crocodile clip probe set is available - see entry below. Display packed.

Features:

- Measures AC and DC Voltage
- Measures DC current • Measures resistance
- 16 position rotary function and range selector
- Recessed input terminals
- Test probes and lead included • Battery check facility

Specification:

DC voltage ... 2.5, 10, 50, 250, 500V

(acc. ±5% of full scale)

AC voltage ... 10, 50, 250, 500V

(acc. ±5% of full scale)

DC current ... 500uA, 10mA, 250mA

(acc. ±5% of full scale)

Resistance - ohms ... x10, x1K (acc. ±5%)

Size ... 64 x 100 x 35mm

Battery ... 1 x AA (not supplied)

*Sold loose.

Stock No.	Part No.	Description	Box Qty	Price each
37317	AMM1	Multimeter	2	£12.92D
51346	AAMM1	Crocodile Clips*	-	£3.96D
37470	YAMM1-01	Probe Set*	-	£3.16D
61834	DLR6/HD	Batteries (4 x AA)	-	£3.10D

2 VT1

AC/DC Voltage Tester

Uses LEDs to indicate voltage. Suitable for testing domestic wiring, automobile circuitry and electronic equipment, etc. 1.2M of VDE harmonized lead. Supplied with 13A safety gate tool which allows testing without removing socket from wall. Range: 4.5 - 400V DC 120V - 400V AC (0-60Hz). Display packed.

Stock No.	Box Qty	Price each
37873	-	£12.82D

3 BBFC1

Battery, Bulb, Fuse and Continuity Tester

Multi-purpose tester for dry cell 1.5V batteries (AAA, AA, C, D and button-type), 9V batteries (PP3/6LR61), household and automotive fuses, bulbs (with bayonet fitting and push/screw type torch light bulbs). Readings show up on clear scale. There is also an audible continuity tester via test probes supplied. Size 70 x 145mm. Runs off 1 x 9V PP3/6LR61 battery (supplied). Display packed.

Stock No.	Description	Box Qty	Price each
57574	Tester	4	£15.18D
61837	Battery (PP3)	12	£5.22D

flexi inspection camera

inspect impossible to reach areas!

10mm dia. water resistant camera head illuminated by six high power LEDs.

High resolution 2.4" TFT LCD colour screen allows a clear and precise view of the workpiece

1M flexible lead for access to areas impossible to reach by conventional means.

Picture (below) shows camera in use at the aircraft conservation unit of the Fleet Air Arm Museum, Somerset.

NEW

4 CAM5

Flexi Inspection Camera

This state-of-the-art camera with a 2.4" TFT LCD colour viewing screen and 1M flexible probe with a 10mm diameter camera head illuminated by six high power LED's together give a picture of areas that are difficult to see with the naked eye - i.e. inside of cylinder chambers, vehicle door spaces, corrosion checks and many other uses in the automotive workshop. Features a PAL video-out connection cable to allow real-time viewing or video recording. Powered by four AA batteries (supplied separately). Display packed.
