

Drawers are fitted with positive latching catches that keep them firmly closed yet easily opened with the catch release handles.

Every drawer has silky smooth ball bearing runners.

Robust maintenance free folding struts are used for simplicity and long life.

Roller cabinet has a comfortable tubular pull handle.

The tool chest features strong lifting handles with generous plastic grips.

Complete with high security cylinder barrel locks and two keys.

Large diameter and extra wide wheels.

Two swivelling castors with locking facility.

Heavy gauge sheet steel is used throughout with a tough oven baked powder coated finish.

MDF board is used to protect the roller cabinet work surface.

DAVE SAYS

These tool chests/cabinets have heavy duty ball bearing runners on the drawer sliders. Unlike 'friction' runners, this allows smoother operation, particularly under heavy loads and lengthens considerably the life of the runners.

1 TC11/HD-PRO
