

industrial quality site lamps

DAVE SAYS

These Draper Expert Quality work lamps offer invaluable advantages over traditional halogen units. To start with - over 80% less energy is used to run them and they output virtually no heat in use compared to halogen lamps.

Ultra-tough polycarbonate lenses and composite plastic bodies make them suitable for the toughest workplace.

- Splash-proof rated IP64.
- Tough composite plastic shell
- High efficiency 24W tubes
- Power tool socket allows the running of a power tool off the lamp saving additional extension leads.

1 WL24

24W 230V Fluorescent Worklamp

IP64 splashproof rated
Expert Quality, ideal for undertaking maintenance and other similar tasks in the workplace. Ultra-tough composite plastic outer shell with handle, feet and polycarbonate prismatic front lens with highly polished reflector for maximum light output. High efficiency 24W fluorescent tube 320mm long, equivalent to a 150W halogen light, saving 83% of energy consumption. Power tool socket allows users to plug in a power tool to run off the worklamp. Size: 225 x 390mm (approx.). An extendable tripod is available for this product. Spare fluorescent tubes available. Fitted with BS approved plug and 3M (approx.) of cable.

Stock No.	Description	Box Qty	Price each
08291	Worklamp	-	£86.10P
08363	Tripod	-	£112.36P
10897	Spare tube	-	£13.64P

2 WL48
