

SAFETY INFORMATION

HEALTH & SAFETY, MAKE SURE YOU COMPLY - HEALTH & SAFETY (FIRST AID) REGULATION 1981. All establishments need at least one first aid box. Large factories will need first aid kits in every self-contained working area and it is recommended that companies with more than 50 employees should consider the provision of more than one kit.

The above Regulation also states an employer shall provide, or ensure that there are provided, such equipment and facilities as are adequate and appropriate in the circumstances for enabling first aid to be rendered to employees if they are injured or become ill at work.

PAUL SAYS - EYE PROTECTION IN THE WORKPLACE

When working in hazardous environments all employees should wear or have access to eye protection. These could be face shields, welding helmets, respirators which cover the entire face and head, safety glasses and goggles.

Draper Tools supply these products which are manufactured to the necessary standards required by EU and UK law.

Eye wash stations are useful in environments where eye protection is not a statutory requirement, ie. offices and warehouses but where there is a possibility of foreign bodies entering the eye during work.

3 FIRE6
