

# Industrial and Workshop Welding

QUALITY MAKES THE DIFFERENCE

The following sub-sections illustrate the Draper range of arc, MIG, TIG and Inverter Welding machines.

## Arc Welding Machines

A selection of welders for all uses including workshop, agriculture and more - from basic MMA welding to more complex TIG welding - ideal 'everyday' welding.

Pages 561-562

## MIG Welding Machines

A broad range of welders from gasless to gas/gasless, through to industrial machines - a versatile and technically advanced series of products capable of welding most materials, from light duty MMA to fully controlled MIG.

Pages 562-565

## TIG Welders/Inverter Welders/ Plasma Cutter/Stud Welder

A high tech, portable range of specialist products for the professional user.

Pages 564-567

## Welding Accessories and Consumables

From MIG wire, to electrodes to welding helmets, torches and torch tips; Draper Tools stock a wide selection of accessories and consumables. Many are supplied from UK based fully accredited companies.

Pages 568-573
