DAVE SAYS

WHAT IS DRAPER EXPERT HI-TORQ? - "Draper Expert HI-TORQ" spanners grip on the flats of the fastener - not the corners. This gives more grip - therefore more torque can be transmitted to the nut or bolt. It also prevents damaging the corners by spreading the load on the flats not the corners.

Contact point on Standard Bi-hexagon spanners
...force on the points!

Contact point on "Draper Expert HI-TORQ"
...force on the flats - no stripping and no damage!
