6 HPW2110

2100W 230V Hot Water Pressure Washer with Total Stop Feature

Ideal for the rapid cleaning of cars, limousines, vans, HGVs, agricultural equipment and other commercial applications. Water is pre-heated to 80°C prior to use by the diesel-powered boiler. The Total Stop Valve automatically activates and deactivates the high pressure cleaner every time the trigger is operated thus increasing the life of the motor and reducing electricity consumption. This powerful motor produces a flow rate of 7L per minute. Supplied complete with 8M of reinforced hose, turbo lance, adjustable lance, heavy duty gun, wheels and BS approved non-rewireable 3 pin moulded plug and cable. Carton packed.

Specification:

Working pump pressure	... 135bar(1955psi)
Flow rate	... 7L/min (420L/hour)
Size approx. (inc. handle)	... 360 x 530x 950mm
Weight	... 40kg
